I −2. Corporate Philosophy

Sozo (Creation): We will create by innovating and taking pride in

high-quality products.

Hoshi (Contribution): We will contribute to our customers' success and serve

society.

Kyoryoku (Cooperation): We will cooperate to ensure our happiness and

strengthen the bonds between us.

The Tadano Group's Business Objective is the implementation of our Corporate Philosophy. We consider this to be something towards which we must constantly and diligently strive.

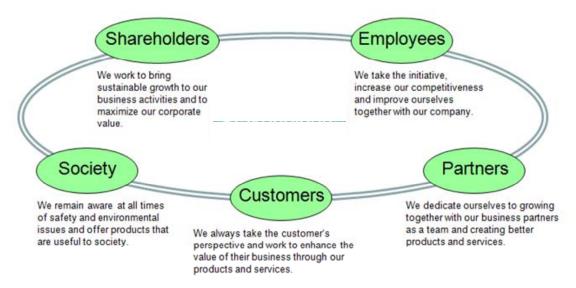

4

I -3. Corporate Social Responsibility (CSR)

Lifting your dreams

We aim to meet the expectations of all stakeholders* and create harmony through win-win relationships in order to maximize our corporate value.

*Stakeholders = All parties with a direct or indirect interest in the conduct of our company's business.

[Vison]

Pursuing Further Excellence for the World and the Future

- •The Tadano Group is working to meet the expectations of all stakeholders and to maximize our corporate value.
- •We are also creating an organizational culture that allows for continued learning and growth.

[Core Value]

Safety (S): Prioritizing the safety of society and of all those who make and use our

products and services

Quality (Q): Pursuing quality improvement, including of products, services, and

business operations

Efficiency (E): Enhancing efficiency in our business operations, as well as contributing to

improvements in customer business efficiency

Tadano's Core Values are "Safety First, Quality Second, Efficiency Third," and we always uphold them in this critical order of priority. However, since it is impossible to manage our company without the third value of efficiency, we must ensure "Safety First, Quality Second, Efficiency Third" by any means necessary.

II - 6. Higher Resilience

Lifting your dreams

Six Keys to Success

Extending our Capabilities

We must constantly strive to strengthen our profitability and to prepare for sudden demand changes.

Becoming Lean

We must become lean by reducing inventory to the proper level.

Flexibility

We must convert fixed costs to variable costs and reduce lead time, among other efforts, in order to attain flexibility toward sudden demand changes.

Diversification

We must avoid over-concentration in one area by diversifying in various aspects, such as product segmentation, sales area, customers and suppliers.

Agility

We must continuously and diligently make forecasts and preparations with heightened sensitivity. We must be prepared for both war and peace, with a Plan B at the ready for immediate action.

Quality Improvement

We must engage in quality improvements, including improvement of product, work and human resources. Product quality, despite the challenges involved in its continuous improvement, is an especially powerful instrument in the enhancement of overall corporate strength.
